

IT DIRECTOR

BarrettClark Executive Search has been appointed to undertake the search for an IT Director. This challenging and exciting opportunity is with a UK-wide care provider that supports 11,000 people at more than 200 locations. They operate hospitals, residential care, nursing homes, independent assisted living facilities and domiciliary care. It's an organisation built around an important set of values and offers high quality services and individualised care through staff that feel valued. The needs of people they care for are at the heart of everything they do, and the company vision is to be the number one provider of consistent, high quality, market leading services.

The Role is outstanding...

- Reporting to the CFO and a key part of a change programme to enable the corporate vision
- Accountable for the design, development, procurement and operation of all information technology across the business
- Own and deliver the IT strategy aligned to the business strategy
- Identify and implement innovative IT services that maximise benefits to the organisation

The Person we are looking for...

- Interpersonal skills that develop and sustain relationships – highly developed communication skills that inspire and motivate
- Leadership of permanent and contract staff
- Strategic thinker with analytical and problem-solving skills, yet hands-on and able to juggle multiple and frequently changing priorities
- Significant experience delivering and supporting IT solutions to multiple sites within the service sector
- Selecting and managing 3rd party software
- Track record of enhancing operational capability and identifying innovative technologies

This is a challenging and exciting opportunity, and one where your work and achievements will make a significant difference. For more information please contact Simon Clark or Harry Seymour who are handling this assignment. Email simon.clark@barrettclark.com or call 07747842587 for an initial discussion.
